

TECHNICAL DATA SHEET

Eurovent CANTILEVER B

Ridge batten bracket, a mounting element for installation of the ridge batten in ventilated sloping roofs, type „sheet“. The bracket is made entirely of galvanized steel and characterized by high durability and resistance to cracking.

PARAMETER	UNIT	VALUE
Material	[PN-EN 10346/2015]	Steel DX51D
Coating	[PN-EN ISO 2081 :2011]	Electrolytic zinc coating with a thickness of not less than 8 μ
Characteristic load capacity	[kN]	3,3
Thickness	[mm]	1,2
Width	[mm]	40; 50
Total length	[mm]	210
Body length	[mm]	185
Head length	[mm]	26
Box	[pcs]	100
Pallet	[pcs]	3 200

Advantages:

- Fast and easy installation
 - Resistance to ageing
- Efficient installation of the ridge batten

Eurovent CANTILEVER B

Application:

The Eurovent CANTILEVER B ridge batten bracket is used as a mounting element for ridge battens. It ensures proper positioning of the batten and enables fast and reliable installation of ridge tiles to the ridge batten. The construction of the bracket makes it possible to adjust the height of its installation on the ridge.

Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
